

You have been chosen as a participant...

NOW WHAT?

For Shokkin Group International it is important that our participants are prepared and know how to perform in international Erasmus+ projects. In order to optimize the learning experience both for yourself and others, we suggest you to follow these guidelines:

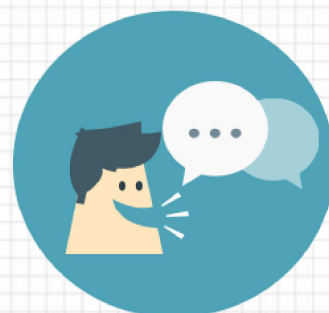

EMAILS ARE IMPORTANT

Read and answer all emails and other info from your sending and hosting organizations.

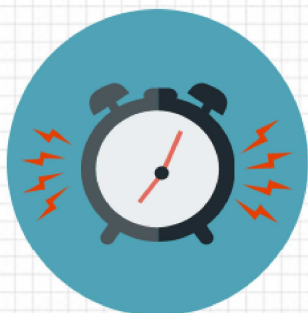

BE PREPARED

Hosts were preparing a lot, so make sure you prepare needed home tasks, NGO and intercultural presentations.

PARTICIPATE ACTIVELY

Follow the programme, engage in discussions and learn as much as possible.

BE ON TIME

Shokkin participants are known for being on time, not oversleeping mornings or getting lost during free time.

APPRECIATE THE EXPERIENCE

Forget about complaining! Remember that this is a learning experience, so try to concentrate on the positive side, the people and the learning.

BE CONSTRUCTIVE

If you feel that something should be improved, give constructive feedback and suggestions for change.

YOU ARE A LEARNER, NOT A TOURIST

Remember that you are here for the learning. You will be able to satisfy your touristic needs before/after the project.

MAKE FRIENDS AND CONTACTS

Many life-changing moments come from meeting people, so use the opportunity to find those who might change yours!

SHARE AND GIVE BACK

Don't forget to take pictures and videos, write a report and attend the after-project meeting.

We send you to a project trusting you and wishing you a great learning and life experience. We, together with our partners, do our best to create high quality projects, and we hope that you will also contribute to make the project work-

We are open for you to join our organization and be part of our meetings, events and projects!
